- Time Efficient Buying in a Single Transaction
  - Same Day Shipping

### **Enthusiasm**

- Positive and Proactive Approach
  - Friendly and Innovative
  - Flexible and Adaptable
- Energetic and Upbeat Team

### **Core Values**

- Family-Owned
- Stable Base Ensures Continuity of Supply
- Integrity Through Honesty, Fairness and Honoring Promises

### **Proven Track Record**

- A Competitive Pricing Structure and Our Prompt and Professional Manner Make Our Company a Step Above the Rest!

## Iconography

A new system has been implemented in this catalog to help you shop the following pages effectively and efficiently! The following icons and symbols represent a variety of features throughout our product line designating gloss, satin, and matte—for our laminates, manual or electric, equipment widths, laminate thicknesses, additional technical data, and more. The icons are displayed below for your continued reference:

**Gloss**   **Satin**   **Matte**   **Textured  
Matte**

*Indicates laminate finish.*

**Manual**   **Electric**

*Indicates how a machine is powered.*

**Try**

*These products are available to try out before you purchase.*

**Roll Length**

*Indicates the linear footage on a roll.*

**Fist**

*Indicates extra aggressive adhesive designed to adhere to any type of digital output.*

**Core Diameter**

*Indicates the diameter of the core of roll laminate.*

**Exclusive**

*Our exclusive products.*

**Ruler**

*Indicates equipment width.*

**USA**

*Made in the USA.*

**Blue Thermometer**

*Cold laminate.*

**Red Thermometer**

*Hot laminate.*

**New**

*New product.*

**Warranty**

*Indicates warranty length.*

**Data Folder\***

*Additional technical data is available on indicated page.*

## New Products

With a new catalog comes new product offerings that make this section bigger and better than ever! Packed full of new products that include: glue dots; velcro; Fastbind—for books on demand; the duraseries—feeder, folder, and creaser; polyolefin shrink film and more!

## Technical Data\*

Located in the back of the catalog, the Technical Data pages include additional information on equipment throughout the catalog, as well as handy details for the finishing industry. If you see the Data Folder icon next to a product, you will find more information for that product on the Technical Data page indicated in the icon. If you need a quick reference on corner radii, mechanical binding pitches, or hole diameters—just flip back to the Technical Data pages of our catalog!
